ROOFER[®]
TOUGH FURNITURE

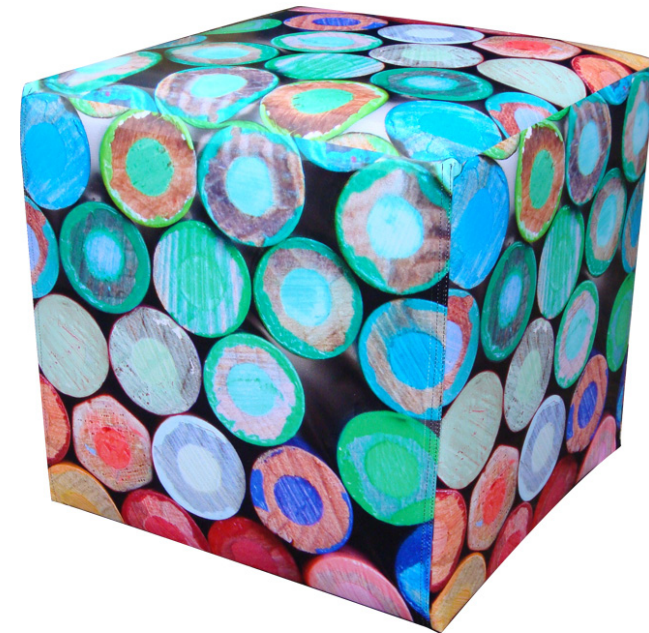

Roofer Bricks are available in full colour and uni colour bisonyl and can be used inside as well as outside. The Bricks have a tough look because of their shiny and sturdy truck tarpaulin and can be ordered with any print you like. Roofer has several standard sizes in its collection but the majority of our orders are tailor-made. Therefore Roofer is very experienced in carrying out your special wishes.

BRICK

ROOFER[®]
TOUGH FURNITURE

The Block is available in different sizes and is coated with bisonyl (a tarpaulin used on trucks) which is available in a wide scale of uni colours and can even be digitally printed. The sofas can be used both on their own, or be cramped either to a wall or to another Brick sofa.

BLOCK

ROOFER®
TOUGH FURNITURE

Just as Brick and Block, Train is available in many uni colours or with a digital print. All upholstered furniture in our collection is also available in many fabrics from various suppliers. Furthermore, the sofas can be ordered in almost all heights and sizes. In short, the possibilities to customise your sofas are endless.

Train's new design is very fancy. The Café sofa is made of different materials. Its support is made of melamine or HPL and the seating unit is lined with bisonyl, skai or other furniture fabrics. By using different materials, the combinations which can be created are endless. This model too allows full colour prints.

The Dining is available in bisonyl (a tarpaulin used on trucks) which is available in a broad uni colour range or with digital print. The Dining is available in various sizes and corner arrangements. So there are multiple possibilities to arrange the sofas any way you like. Because all our furniture is sturdy and easy to clean they are often used in public spaces.

Recycled synthetic material is an environment friendly product which is produced from second-hand synthetic fibre. It is produced by melting different synthetics together and press them into standard moulds. The material is not impregnated, does not emit toxic fumes and can always be recycled again. The production process makes the material thoroughly solid; it is heavy, highly durable and lasts 10 times longer than wood when placed outside. It is also frost and UV proof and does not absorb dirt or moisture.

RECYCLED

ROOFER[®]
TOUGH FURNITURE

The Puck, a hassock in different sizes, has a patented core made out of recycled synthetic material. The Puck is highly durable, lightweight, easy to clean and has a beautiful finish. It is available in 5 standard sizes and various colours and the top can be customised with its own print.

PUCK

ROOFER[®]
TOUGH FURNITURE

To finish a furnished space, Roofer also designs lampshades. The lampshades can be lined in uni colours or a design of your choice. They are available in different shapes and sizes. The material we use is chinette. You can also order tailor-made lampshades.

Wallprints are ideal to change a wall into a landscape, a panoramic view, your dream city or decorate your wall with your own picture. Just think of the possibilities if you could customise your walls. If you use standard wallpaper your options are limited. But with our Wallprints the possibilities are adjusted to your wishes. Come up with your own Wallprint! We can link seamlessly up to 4.9m in height and 25m in width.

CAPTAIN PIET

ROOFER®
TOUGH FURNITURE

Captain Piet is a multifunctional object with about 80 seats. Within 15 minutes these pieces can be converted into a large and sturdy stage of 700cm by 300cm and 80cm high. Captain Piet consists of: 5 Captain picnic tables, 6 Captain lounge sofas, 4 Captain stairs (seat elements), 4 Captain Block (low tables) and 12 floor parts.

DUTCH DESIGN | CUSTOMISED | DURABLE MATERIALS

CAPTAIN PIET

ROOFER®
TOUGH FURNITURE

Roofer beschikt over een ontwerpstudio. Omdat alle meubels in 3D geanimeerd kunnen worden zijn wij in staat om een realistisch ontwerp neer te zetten.
